

**Day 1 Wednesday, 24 May 2023**

*all times are GMT+1 (CET)*

**Opening Keynote - 13:00-14:00**

Sylvy Jaglin, Université Gustave Eiffel - Flow/Overflow/Shortage: An introduction

*Chair: James Christopher Mizes, Université Paris-Dauphine & Università di Bologna*

**Panel 1.a - 14:00-15:30 - SHORTAGE**

Sheeba Amir, KU Leuven - Ecologies in transition: Investigating emerging hydrosocial complexities in urbanizing Gurgaon, India

Razaz H. Basheir, University of Cape Town - Electricity shortage in Khartoum: A research journey into alternative configurations

Rinan Shah, Ashoka Trust - Ways of storing and using water: Experiences of water scarcity in a water rich region

*Discussant: Sophie Schramm, TU Dortmund*

*Chair: Moritz Kasper, TU Dortmund*

**Panel 1.b - 14:00-15:30 - LOGISTICS & DISTRIBUTION**

Alexander Baker, University of Sheffield - Red blood cells: Eviction as logistical flow

Anisha Gooneratne, Colombo Urban Lab - Feeding the city: Exploring the role of food infrastructure in Colombo, Sri Lanka

Julie Cidell, University of Illinois - Containers in crisis: Pop-up ports and the spillover of shipping containers as part of the US supply chain crisis

*Discussant: Dimitris Dalakoglu, Vrije University of Amsterdam*

*Chair: Demetra Kourri, Manchester Metropolitan University*

**BREAK - 15:30-16:00**

**Panel 2.a - 16:00-17:30 - CRISIS & EVENT**

Meghal Perera, Colombo Urban Lab - Back to biomass: Crisis and Colombo's disrupted energy flows

Noura Wahby, American University in Cairo - How to be both: Water shortage and abundance as crisis in Egypt

Sajani Kandel, University of Massachusetts - Vulnerable or resilient? Looking at urban extreme heat across North America and South Asia

*Discussant: Liza R. Cirolia, University of Cape Town*

*Chair: Sophia Abbas, Yale University*

**Panel 2.b - 16:00-17:30 - MEASUREMENT**

Theresa Zimmermann, FU Berlin - Between ordinary and extreme: Rationalities of and responses to (monsoonal) water flows

Roman Solé-Pomies, Mines Paris—PS - Conflicting flows: The engineering of lasting roads and climatic hostility

Francis Dakyaga, TU Dortmund - Urban infrastructure futures: Caring, repairs and pricing practices of the non-networked water supply infrastructure in Dar es Salaam

*Discussant: Stephen Collier, University of California Berkeley*

*Chair: James Christopher Mizes, Université Paris-Dauphine & Università di Bologna*

**Day 2 Thursday, 25 May 2023**  
all times are GMT+1 (CET)

**EVENTBRITE**

**Panel 3.a - 13:00-14:30 - OVERFLOW**

Rhys Madden, LSE - Harbour flows: A comparison of local and national problems

Nirupama Jayaraman, University of Illinois - Under construction: Understanding disruptions through everyday mobility

John Betts, The New School - Diagnosing the temperament of New York City's homeless services infrastructure

Lucky Chidembo & Eliot Jori, University of Zimbabwe - Cemetery precincts in shrinking urban space and their impact to spatial planning in Zimbabwe

*Discussant: Sudeshna Mitra, Indian Institute for Human Settlements*

*Chair: Andrea Pollio, University of Cape Town & Polytechnic of Turin*

**Panel 3.b - 13:00-14:30 - MANAGEMENT**

Jennifer Ventrella, The New School - Disrupted electricity flows: The implications of transmission bottlenecks in New York State

Pushpa Arabindoo, University College London - Material politics of a water bureaucracy: The affect of check dams in Chennai

Alejandro De Coss-Corzo, University of Bath & Sally Cawood, Lancaster University - The isle of discontent: Tracing overflow, shortage and infrastructural violence in the UK

*Discussant: Olivier Coutard, CNRS*

*Chair: James Christopher Mizes, Université Paris-Dauphine & Università di Bologna*

**BREAK - 14:30-15:00**

**Panel 4.a - 15:00-16:30 - CITIZENS & STATE (1)**

Maria Khristine Alvarez, University College London - Paradoxes of resilient city making in Manila

Alejandro Porcel, University of Cambridge - Mitigating citizenship

Augusto Cesar Oyama, Kyoto University - The flow-overflow-shortage relationship in the context of mega-events from a housing rights perspective

*Discussant: Mara Nogueira, Birkbeck University*

*Chair: Suyash Barve, Queen Mary University*

**Panel 4.b - 15:00-16:30 - CITIZENS & STATE (2)**

Laura Silva, Sciences Po - Living powerless.: The effect of intense load shedding in the southern suburbs of Cape Town

Srijon Barua, Kyoto University - On the precipice of an infra- or, vice versa

Mary Lawhon, Cecilia Alda-Vidal & Megan Clark, University of Edinburgh - A modest approach to infrastructure in African cities?

*Discussant: Wangui Kimari, University of Cape Town*

*Chair: Moritz Kasper, TU Dortmund*

**Closing Keynote - 16:30-17:30**

Rashmi Sadana, George Mason University - Futile mobilities: The stops and starts of Delhi's transport infrastructures

*Chair: Andrea Pollio, University of Cape Town & Polytechnic of Turin*
